Frontend developer

KEY SKILLS: REACT | TypeScript | Webpack | Gitlab | GraphQL | Next.js | Gatsby

A self-motivated web developer with **over three years** of work experience in the industry, specializing in frontend development with a keen interest in utilizing my knowledge to create value for the company.

WORK EXPERIENCE

Freelance developer - Sydney, NSW

July 2024- Now

Frontend developer

- Translated design into responsive web pages for my customers
- Fetched and displayed dynamic content by connecting the front-end with APIs (e.g., REST or GraphQL) and integrating 3rd services like payment gateways or analytics.
- Made enhancements, fixing issues, and implementing new features on existing websites based on user feedback or client requests.
- Planned and prioritized tasks, setting milestones, and managing time effectively to meet deadlines and budget constraints.

Zerologix - Sydney, NSW

Aug 2021- Nov 2023

Frontend developer

- Implemented Locize for multi-language support, reducing resulted in a **90% update time** savings compared to the traditional method (**i18next with react**) to update content.
- Integrated Webpack 5 Module Federation, enabling a micro-frontend architecture that improved development speed by 20%.
- Developed and documented essential Material UI components, streamlining development and accelerating delivery.
- Optimized webpage performance by reducing widget bundle size, doubling the performance score, and cutting response time **by 40%**.

Velocity English - Sydney, NSW

Feb 2021 – Aug 2021

Full-stack developer intern

- Restructured the backend APIs to reduce **70% fetching data time**.
- Improved application performance by **database query optimization**, reducing query execution time by **50%**.
- Participated in daily stand-ups, sprint planning, and retrospectives to align with team goals and track progress on tasks.
